

UNITED STATES ARMY

Thursday Evening

Hello Folks,

I had hoped to have plenty of time to write tonight but as usual by the time I got everything done time has slipped away.

I got a package rounded up to send you this evening. It is mostly stuff that I had been intending to send for a long time. Just like you find it when it comes to moving, anything that I can't use or don't need I might as well get rid of. I'll try to explain some of the stuff.

The pants are "X" pants that I got when I was working in the supply room. They are getting so strict on extra stuff that I'd better send them home than have them taken away from me. If Richard can wear them go ahead if not I'll be able to use them

some time. The towels were all right till I got face towels but since I don't even use the face towels except for inspections you might as well be using them. The handkerchief is one that's not G.I. that I got back from the laundry—hope someone can use it.

I have a G.I. razor + shaving brush and so might as well use them. For sentimental reasons maybe you could keep my razor + brush for me.

The books + glasses don't need any explanation. If some one can use those frames, go right ahead. I kept the pictures I want to keep + you can keep the rest better than I can.

I thought you might be interested in my birthday cards. Dispose of everything in that bunch except Margaret's announcements.

You can do whatever you wish with the toilet article apron. The apron served fine but the case I had when on furlough serves so

UNITED STATES ARMY

much better and is so much easier to take care of. The biggest trouble with the apron was that I was always losing things from it.

Today at radio school we learned about panel work. This is signaling to airplanes by stretching cloth panels out on the ground.

I have thought of something I'd like for you to send me. That is 2 or 3 pr of light wool sox. We have to wear them now that our feet sweat in hot weather. The g.i. ones are about like the cotton ones only they are just a little heavier. They can be either ^{unfired} red, white or gray. If you can't find anything like this some of those cotton sox (in these colors) like we used to get for work. I believe they were called Rockford Sox

and had red heels. I think these
would pass for g i if they were of
the right color. The advantage of having
them look like issue 204 is that I
can salvage them if they do.
Don't forget the cigar box.

I was on N P till about 10:30
last night so I'm really tired now.
It's time for lights out anyway so
good night.

Love

Donald

I'm sorry this had to be such a
poor excuse for a letter. My car has
been behaving so nicely that I'm
about out of the mood for fooling
with the clinic any more. I'll try
to do better about a letter on Sunday.

AFTER FIVE DAYS, RETURN TO
