

Wednesday, 11:00AM

Dear Folks,

Well after 9 days I am still here. As far as I know the last (except me) of the bunch that I came with me was sent out yesterday.

I have been very busy but I got about half of this morning off because I had to take my second shot.

I have done two days H.P. duty, one day of guard duty, and the rest of the time I have done odd jobs

such as; clean up the grounds, sod the ground around the sewage disposal plant, etc.

Joe Lewis is supposed to be

at the camp tonight and I think that I will go see him, if they don't give me some job to do.

We are kept busy but are not given more than we can do. We have good eats and plenty of them. Once in a while we even have pie and cake.

I suppose by now that you are beginning to get on to your job. Daddy tells me that you are getting along alright and are doing a good job. I was very glad to hear that.

Write whenever you can.

Love
Donald.
