

Tuesday night

Dear Folks,

Time is very short so this might not be much of a letter. I had to work in the supply room until after 8:00 and then I took a shower. This leaves me very little time before 10:00.

I was glad to get your letter today which contained the sale bill. I had a great time trying to decide which description belonged to which cow.

I have been working in the supply room so far this week. All my boys in the sick hut have recovered so I am rid of that job at least until someone else gets sick.

The most real news I have is that I got my pay today that I missed getting at the first of the month. I wonder if my bonds are coming through alright.

I suppose that you must be getting back to some kind of routine by this time. I suppose that there is still some work to do but I'll bet you feel lost without all the stock to take care of. I wonder if you kept the one little cow that you mentioned about.

Some of these times (no hurry at all) when you want to send me something I would like a couple of tee shirts. For one

thing they have told us that we can't wear our sweaters outside of our shirts any more because they aren't part of our uniform. With a tee shirt I could wear it under my shirt without having it next to my skin. Tee shirts would also come in handy for lots of things.

Well I hope you are all well. I am feeling fine.

Love
Donald.

your letter had 6th Regt instead of 5th on it.

your letter had 6th Regt
