

Wed. 8:30 PM

Dear Folks:

This will be a short letter because the lights go out at 9.00. I worked on road detail this morning and on the detail that cleans up the ground this afternoon. After supper I was sent to help clean up one of the buildings in which records are made and filed. I got off from this about 10 minutes ago.

I was very lucky on the job I had yesterday. I was assigned to work in the warehouse, where they issue clothing. They only ran through a very few people so we didn't have to work hard and we got off with about a half days work.

Tomorrow I am supposed to get my third and last typhoid shot. This as far as I know will be the last shot I will get here.

Every day I expect to be shipped but not yet. I didn't get to hear the shipping list read tonight so I don't

know whether I will ship tomorrow or not. I won't seal this letter tonight so I can let you know whether or not I go tomorrow. The shipping list will be posted on the bulletin board sometime in the night.

I suppose you have turned in my ration books and have given Boss Walker those ration points I owed him from the last Saturday I was home.

I suppose you got the letter that said I wanted my social security card.

Well I guess there is no more news and anyway I want to get all the rest I can tonight.

Love,
Donald.

Wed morn.

5:15

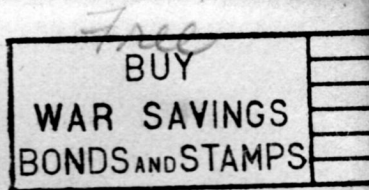

Well I will be here for another day. About 16 days of it.

Post. Donald Jagger.
