

Jan 4, 1944

Dear Folks,

I can't make any promises about the length of this letter because time is very short. The main purpose of this is not to tell my exciting adventures but just to let you know I am O.K.

In our Regiment there is a hutment where they send fellows to regenerate from flu, colds, etc. Well for the last 2 days I have been nurse maid to the boys of our Co. that are in this hut. There are 5 of them. I carry their meals, keep the fires going, sweep the floor, etc.

This morning I was also put on a detail of policing up the area. General Bonesteel was going to make an inspection tour and so just in case he came here the place had to be spic and span. I don't think

he ever got here but anyway he caused
me to spend a very exciting morning.
Also I have been working some in the
supply room between trips to the sick
hut.

This is all the news I can think of
and I am heading for bed.

Love

Donald
