

Dear Folks.
Well I

Wed night

Dear Folks,

Well I am pretty tired tonight. I haven't done so much extra but for some reason I feel the effects of it.

Yesterday and today I have worked in the supply room with, of course, odd jobs of all kinds on the side.

I suppose I will go to the laundry tomorrow and then I will have a real treat tomorrow night. Ha. Ha. I've got to go out with the company on a practice bivouac. In other words live in a pup tent for one night. This will kind of ease me into the spirit of training, I guess.

I suppose that I'll start training about the first of next week. I had a whole week of the range but this company starts right out by firing the machine gun. Since I didn't do this before it will mean that I must take the whole 2 weeks over again.

I worked in the supply room till about 8:30 tonight and then I took a shower and tried to get some of my things ready for the next two weeks. So with about 20 minutes of this letter I must hurry and sign off before the lights go out.

I hope you are all O.K.

and that things are straightening
out alright

Love

Donald

P.S. This will arrive too late
for this but today is Dady's
birthday. - So Happy Birthday

P.S. This.
