Monday Evening,

Richard,

This will be very short but it'll tell you what I want to. Just in case I'm too busy tomorrow I want to get this done tonight. Sometime Wednesday I'm leaving for Ft. Dix, New Jersey. I won't be much, if any, closer to home than I am now but at least I'll be getting out of the South. There are a lot of regions in this country that would be worse than New Jersey, too.

I wish I knew what my address will be but we'll just have to wait

for that. I'll let you know about it just as soon as I can.

I suppose school is going strong at home now. How are things coming with you?

Well be good and lots of luck to you.

Your brother,
Donald
